

PURE WATER

Ultra selection. Ultra support. UltraPure Valves.

When a job calls for lead-free* compliance in a potable system, new UltraPure valves from Milwaukee Valve help you meet the new standards... everywhere. UltraPure valves offer the largest variety of lead-free valves on the market that meet or exceed the requirements of California's new law, AB 1953. The new line includes:

- **2-Piece Ball Valves** – Standard or Full Port.
- **Gate Valves** – Rising and Non-Rising Stems, rated for 200 and 300 lb. WOG.
- **Globe Valves** – rated for 300 lb. WOG.
- **Swing Check Valves**, rated for 200 and 300 lb. WOG.
- **Lift Check Valves**, rated for 200 lb. WOG.

Download our new white paper – *“Ten Tips for No-Lead Compliance”* at www.UltraPureNoLeadValves.com to learn more about today's potable systems standards.

While there, you'll find UltraPure specs and features, downloadable product literature, and contact information for your Milwaukee Valve representative to help you determine when, where and how to use no-lead valves – everything you need to make any job easier.
